Success in a team means, it is better to get 1 percent of all than 100% only by own engagement.

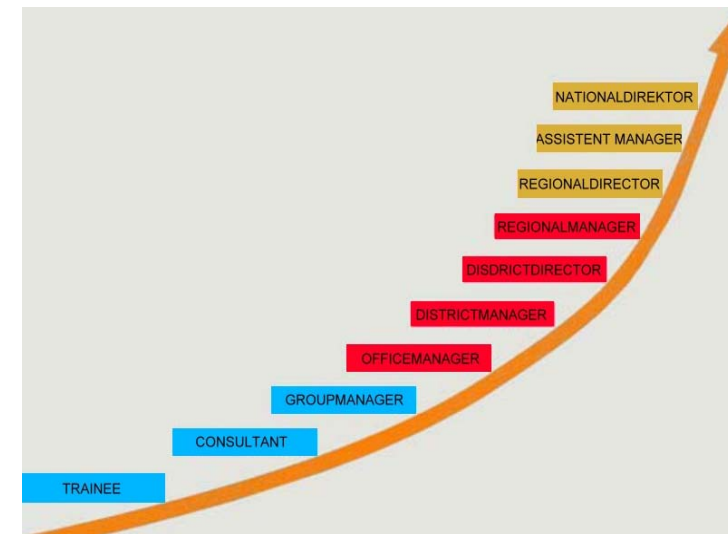

1,000 times 1% is 10-fold from what you can reach alone.

Das war auch der Erfolg Ihrer gegenwärtigen und vorigen Chefs.

Now you have the chance to become your own boss

You search a new job or the springboard in the independency

The education phases

How you have recognised in the picture of the career plan, the rise is divided in three groups.

Phase 1 is the training in which you are coached, first to get to know the products perfectly. Afterwards you learn to build up your own team and lead it to success.

Phase 2 begins after you run through phase 1 of the training and know like a team is built up and is led, Here decides how fast you make career.

Phase 3 it is the aim. You have built up your career and now harvest the fruits of your work. Of course it also goes here not without work, but you can do everything much more calm.

Conditions for an activity

Because we train all our partners from the beginning intensely and further. You do not need any special foreknowledge.

Foreknowledge you have acquired with other products can be even disadvantageously, it is often tried to apply this inexpedient knowledge also to our products

Only the contact with your direct Upline

and the visit of our trainings which take place at different places and with it also near your residence is important.
