

Your Career With Us

Career possibilities are offered in many enterprises.

Mostly it is in such a way that you must hope after the setting for the fact that you are discovered by a superior, perhaps, and he keeps an eye on you for an advance.

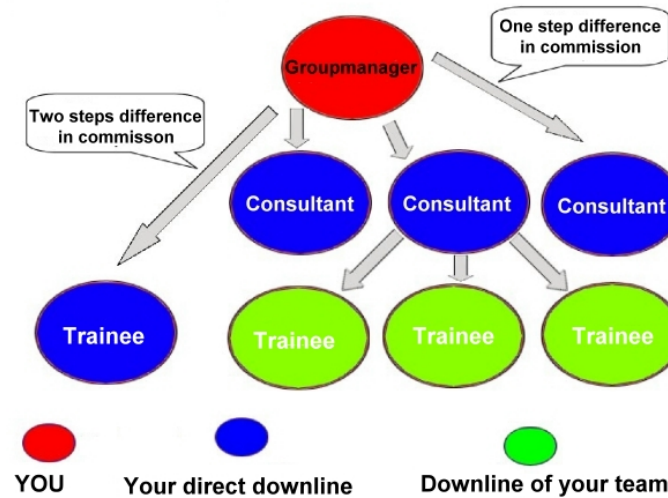

With us you determine with your achievement income as well as rise in our enterprise.

You must not wait, until you are "discovered", only your achievement founds the claim to the rise and with it upon a new title which is connected with a higher payment.

With the higher position you take over more responsibility relative to the enterprise and your partners.

Only this is paid.

Use the opportunity and apply.

Determine as fast your career and your enterprise grows.

Do not dream about a career; make it

Every career begins with an extensive education.

Training phase

As in every occupation it is also with us, we and our team provide for the fact that you agree a suitable basis for your future activity.

Even during this training phase you already earn money and can climb up quite slowly.

Your income is not as high yet as in the future, because the training phase will be interesting for you, but for the members in the team it is more strenuous.

The career phase

In this phase you have finished the training successfully, and have already started working with a own small team.

You have shown us that you are either a good adviser or a team player, able to forming your own team and leading to success. In the ideal case you are both.

We support you intensely with the fact that you develop successfully your team in the career phase and lead to the success.

Here your income grows quite fast, because you get to feel now also the results of your team in "cash".

Here you fulfil the duties which are called in other enterprises middle management.

These duties also affect you financially.

Here you lay within 1-2 years the foundation for a good future income and the crossing over to

the Aim which will allow you to limit yourself in future to it to lead your good team colleagues to even higher results.

The aim phase

After training and career phase you are in a lucky position in which you look only after the results of your team.

Your income has hardened, The responsibility has increased, but for it you were coached by us

In your opinion an activity with us the right thing is for you, then disconcert yourselves by Nobody and go your way.

Do not let you guide towards by those which never undertake something and search always only for problems.

It is also better for you to have 1% of 1000 people than 100% only from own work.

Single fighter = high risk

e.g., with working inability

Teamwork = your social security

e.g., with illness or accident
